Narrating Southern Chinese Minority Nationalities Guo Wu, 2019-01-19 Based on fieldwork, archival research, and interviews, this book critically examines the building of modern Chinese discourse on a unified yet diverse Chinese nation on various sites of knowledge production. It argues that Chinese ideology on minority nationalities is rooted in modern China's quest for national integration and political authority. However, it also highlights the fact that the complex process of conceptualizing, investigating, classifying, curating, and writing minority history has been fraught with disputes and contradictions. As such, the book offers a timely contribution to the current debate in the fields of twentieth-century Chinese nationalism, minority policy, and anthropological practice.

The Human Face of Radiocarbon Collectif, 2018-12-18 This volume presents the results of a multidisciplinary research program ("Balkans 4000") financed by the French National Research Agency (ANR) and coordinated by the editor between 2007 and 2011, when she was a member of the Maison de l'Orient et de la Méditerranée (Laboratory of Archaeology and Archaeometry). 192 new radiocarbon dates have been produced in the laboratories of Lyon, Saclay and Demokritos, from 34 archaeological sites, spanning the years from the end of the 6th to the beginning of the 3rd millennium BC. They shed light on the evolution of human settlement during the late stages of the Neolithic period in Greece and Bulgaria, and more specifically on the transition from the Neolithic to the Early Bronze Age during the "obscure" 4th millennium BC. Thirty-one scholars, archaeologists as well as radiocarbon scientists, are signing the contributions.

**Radical** David Platt, 2010-05-04 New York Times bestseller What is Jesus worth to you? It's easy for American Christians to forget how Jesus said his followers would actually live, what their new lifestyle would actually look like. They would, he said, leave behind security, money, convenience, even family for him. They would abandon everything for the gospel. They would take up their crosses daily... But who do you know who lives like that? Do you? In *Radical*, David Platt challenges you to consider with an open heart how we have manipulated the gospel to fit our cultural preferences. He shows what Jesus actually said about being his disciple--then invites you to believe and obey what you have heard. And he tells the dramatic story of what is happening as a successful suburban church decides to get serious about the gospel according to Jesus. Finally, he urges you to join in The Radical Experiment -- a one-year journey in authentic discipleship that will transform how you live in a world that desperately needs the Good News Jesus came to bring.

History, Exploration & Exploitation of Oil and Gas Silvia Fernanda Figueirôa, Gregory A. Good, Drielli Peyerl, 2019-04-02 This edited volume discusses scientific and technological aspects of the history of the oil and gas industry in national and international contexts. The search for oil for industrial uses began in the nineteenth century, the first drills made in Azerbaijan and the United States. This intense search for a substance to become one of the most important energy sources was, many times, based on skill as well as luck, resulting in knowledge and the development of prospecting and exploration technologies. The demand for oil improved expertise in geological science, in areas such as micropaleontology, stratigraphy or sedimentology and informed different disciplines such as geophysics. These contributions made possible not only the discovery of new oil fields but also new applications and methods of exploration. Beyond the scientific and technological aspects, an industry that grew to such considerable size also impacted the political, economic, social, cultural, environmental and diplomatic issues in history. The book approaches these changes in different scales, countries, areas, and perspectives. This edited book appeals to researchers, student, practitioners in various fields from geology and geophysics to history. It is also an important resource for professionals in the oil and gas industry.

*Blood and Religion* Jonathan Cook, 2006-04-20 What does Israel hope to achieve with its recent withdrawal from Gaza and the building of a 700km wall around the West Bank? Jonathan Cook, who has reported on the Israeli-Palestinian conflict during the Second Intifada, presents a lucid account of the Jewish state's motives. The heart of the issue, he argues, is demography. Israel fears the moment when the region's Palestinians – Israel's own Palestinian citizens and those in the Occupied Territories – become a majority. Inevitable comparisons with apartheid in South Africa will be drawn. The book charts Israel's increasingly desperate responses to its predicament: -- military repression of Palestinian dissent on both sides of the Green Line -- accusations that Israel's Palestinian citizens and the Palestinian Authority are secretly conspiring to subvert the Jewish state from within -- a ban on marriages between Israel's Palestinian population and Palestinians living under occupation to prevent a right of return 'through the back door' -- the redrawing of the Green Line to create an expanded, fortress state where only Jewish blood and Jewish religion count Ultimately, concludes the author, these abuses will lead to a third, far deadlier intifada.

**The Image of the City** Kevin Lynch, 1964-06-15 The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.
